2021 Abstract Reviewers

Welcome to the 33rd Annual Scientific Sessions Virtual Conference!

We are thrilled you are joining us for this year's exciting virtual conference! Our conference theme is **Generating Nursing Science to Meet the Needs of a Diverse Society**. We extend our sincere appreciation to our annual partners and conference sponsors for their generous financial support and help in sustaining the Eastern Nursing Research Society.

We are truly grateful for the ongoing support and dedication of our members as we continue to navigate these challenging times. We remember those we have lost this past year and stand in solidarity with individuals, groups, and communities from diverse backgrounds and experiences who have suffered as a result of the pandemic, systemic racial injustices, and health inequities.

Thank you to our incredible ENRS Executive Board, President-Elect Dr. Jane Flanagan, Treasurer Dr. Donna Nickitas, Secretary Dr. Carina Katigbak, and Members-At-Large Dr. Melissa O'Connor (Awards), Dr. Marilyn Hammer (Communications), and Dr. Lisa Kitko (Research Interest Groups [RIGs]), as well as our committees, RIGs, and members. Their hard work has enabled ENRS to thrive.

While this has been a challenging year, I am happy to share that ENRS has grown even stronger as an organization. Many thanks to our Executive Board for its strong leadership in advancing our vision to promote health through nursing science and its stewardship in implementing our comprehensive strategic plan. Please join us at the All Members Meeting to learn more about our strategic initiatives.

Over this past year, ENRS has not only reaffirmed our commitment to diversity, equity, and inclusion, we have acted. We have acted by creating our Inclusion, Diversity, Equity, and Accessibility (IDEA) Advisory Group led by Dr. Lisa Lewis and comprised of diverse members from academic and clinical organizations across the region. The IDEA Advisory Group has made substantive recommendations to the Board regarding membership, our organizational structure and branding, as well as our organizational climate and equity, that will further strengthen ENRS in embracing these important core values. We have also acted by providing forums for our members to network and engage with one another throughout the year to share their scientific work through our RIGs and regular webinar series in addition to offering enhanced membership and communication opportunities.

Many thanks to our amazing Conference Planning Committee, chaired by President-Elect Dr. Jane Flanagan as well as our expert abstract reviewers, abstract slotters, and ACG management team for their flexibility, creativity, and tireless commitment to ensure the success of our 33rd Annual ENRS Conference. We are incredibly proud of the work of our organization and our members this past year. We invite you to view the outstanding presentations by top nurse scientists, mid-career researchers, and emerging scholars available on our virtual platform. Continuing education credit is available for the live and virtual presentations.

Please accept our heartfelt gratitude as we continue to work together to advance our ENRS mission to promote innovative nursing science. We look forward to your feedback and continued collaboration and partnership.

Stay safe and be well.

Warmest wishes,

Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and Eastern Nursing Research Society. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Nurses (ANCC)

Amedco LLC designates this live activity for a maximum of 10.50 ANCC contact hours.

Amedco LLC designates the on-demand activity for a maximum of 27.75 ANCC contact hours.

Description of the 33rd Annual Scientific Sessions:

This year's theme is "Generating Nursing Science to Meet the Needs of a Diverse Society." The Virtual 33rd Annual Scientific Sessions appeal to all individuals interested in advancing nursing science, including nurse researchers, leaders in evidence-based practice, and dedicated nursing science students and faculty.

2021 Conference Objectives:

- 1** Explore innovative programs of nursing research that have made significant contributions in advancing the health of diverse populations.
- 2** General creative strategies for dissemination and translation of nursing science that promotes diversity, health equity, and inclusion into policy and/or practice.
- 3** Examine the impact of leading theoretical and methodological perspectives to transform nursing science to meet the needs of a diverse society, including dissemination of nursing science into practice.

Conference Highlights

Opening Keynote Speaker: *Building Healthy Communities Together to Promote Health Equity, Social Justice, and Evidenced-based Research... Listening to the Voices of the Community and Responding* with Loretta Sweet Jemmott, PhD, RN, FAAN, Vice President, Health & Equity, Professor, College of Nursing and Health Professions, Drexel University College of Nursing & Health Professionals

RUTGERS

School of Nursing

Associate Dean Division of Nursing Science

The School of Nursing at Rutgers, The State University of New Jersey, invites candidates and referrals for a highly accomplished, visionary leader to serve as Associate Dean, Division of Nursing Science (Associate Professor or above). The position is based in Newark.

Top-Ranked Nursing School at a Leading Research University

Rutgers is a member of the Big Ten Academic Alliance, a consortium of 14 world-class American research universities. Experiencing an upward trajectory in NIH funding, and ranked in the nation's top 20 for our DNP and MSN programs, Rutgers School of Nursing educates a highly diverse population of 1,800 students.

Vision and Leadership for Nursing Science

As Associate Dean for our school's Division of Nursing Science, you will oversee our PhD program, established more than 30 years ago as the first nursing doctorate program in New Jersey. You'll provide vision and leadership for our schoolwide research enterprise, including oversight of our Centers of Excellence and faculty mentorship initiatives, as well as joint oversight of our Office of Contracts and Grants. Our research-focused environment offers a full-range of resources to advance nursing science.

For Information and To Apply

Rutgers offers competitive salaries and excellent benefits. As an Equal Opportunity/Affirmative Action employer, compliant with the ADA, we embrace and value diversity.

For more information about this position or to make a referral, please contact

Christine Duggan, Associate Director of Faculty and Staff Resources:
